Experience

IMPAKTER

Full Stack Developer
London (Remote)

September 2024 - Present

- Responsible for **leading** the entire project, from defining the architecture to implementing all functionalities.
- Developed the Frontend using **Next.js** and **Tailwind CSS**, ensuring **SEO** optimization, accessibility, responsive design and clean and maintainable code.
- Implemented the Backend with **Node.js** and **Express**, including a REST **API** and a script for processing and inserting data from CSV files into MongoDB, ensuring efficient data handling and scalability.
- Designed a scalable **database** schema using **MongoDB** and **Mongoose** to optimize performance and streamline data management.
- Consistently met deadlines and delivered **high-quality** products, showcasing strong organizational skills, **critical thinking**, and **proactive problem-solving**.

Education

International University of La Rioja

Master's Degree in Full Stack Development
November 2024 - Present

Self-Education

Full Stack Developer
August 2022 - Present

- Focus on **React.js** as the main library. Currently learning **Angular** to gain comprehensive knowledge in modern web development.
- Experience in **Backend** development, especially with **Node.js** and **Express.js**, enabling the creation of fully functional applications.
- Knowledge of both relational and non-relational databases, including experience with **MongoDB** and **SQL**-based systems.
- Strong foundation in **Git**, cybersecurity, and networking, ensuring secure and efficient development practices.
